<b>Effective Annual Interest Rate (%)</b>	<b>26.60%</b>	<b>71.00%</b>

## IMPORTANT NOTES FOR THE PUBLIC

Borrowers should note that two financial service providers may show almost the same amount of the monetary (Kwacha) costs of borrowing. However, their Effective Annual Interest Rate may vary widely. The difference in the Effective Annual Interest Rate on loans obtained from different financial service providers arises from factors such as differences in the frequency of compounding interest, differences in the effective periods and differences in the average principal amounts outstanding during the effective loan periods.

Irrespective of the specific structure of a given loan, financial service providers licensed by the Bank of Zambia are required by regulations 4 and 5 of the Banking and Financial Service (Cost of Borrowing)

The Effective Annual Interest Rate is the actual cost (price) of a loan. Financial service providers licensed by the Bank of Zambia are required by regulation 7 of the Banking and Financial Service (Cost of Borrowing) Regulations, 1995 to disclose the cost of borrowing to the borrower, at or before the time at which the loan is made.

Therefore, borrowers are hereby informed to insist on financial service providers disclosing to them the Effective Annual Interest Rate that has been computed according to the Cost of Borrowing Regulations.

Borrowers should also use the Effective Annual Interest Rate, including other factors such as convenience and quality of service, to decide on which financial service provider to borrow from.
